SecondLane

Logo and typography

The basics for the platform team. The full guide, with components, tokens and code, is at yyyyyyyyuri.github.io/secondlane-preview/guidelines

LOGO

- One colour only: linen on green, green on linen or sand. Never yellow, never on busy photography.
- Clear space: half the logo height on every side. Minimum width 96px on screen; nav size 128 × 32px.
- Supplied as one SVG (logo.svg); use it as a mask so its colour follows a token.

FONTS

Aa

Ashcroft

Headlines, card titles, large figures. Regular 400 for headings, Light 300 for figures. Slight negative tracking on large sizes.

Aa

SFT Schrifted Sans

Everything else: body, interface, labels, buttons. Regular 400 and Medium 500.

The prototype uses trial files. Licensed web fonts are needed before launch. Fallbacks: Georgia (serif), Helvetica Neue (sans).

TYPE SCALE · DESKTOP (PHONE)

Display	Ashcroft 400	68px (44)	Product heroes
Heading 1	Ashcroft 400	58px (36)	Home hero
Heading 2	Ashcroft 400	48px (34)	Section titles
Heading 3	Ashcroft 400	36px (28)	Cards, FAQ
Heading 4	Ashcroft 400	30px (24)	Small headings
1,500+	Ashcroft 300	64px (48)	Stats, figures
Lead paragraph	Sans 400	18px (16)	Standfirsts
Body copy	Sans 400	17px (16)	Line height 1.55
Small	Sans 400	15px	Footer, help
Caption	Sans 400	13px	Disclaimers
Button	Sans 500	16px	Buttons
EYEBROW	Sans 500	12px	Uppercase, +0.07em

SecondLane

Colour

Eleven colours, agreed in Round 3 (Option C, Warm earth). No other colours and no extra shades: for a softer version (lines, tints, panels), use one of these with transparency.

CORE

Bottle green
`#12301F · RGB 18 48 31`

Primary ground: hero, nav, footer, most sections. Text on linen.

Linen
`#F5F3EF · RGB 245 243 239`

Light sections. Text on green.

SL Yellow
`#E3FD5A · RGB 227 253 90`

Signal only: main buttons, eyebrows on green. In charts, SecondLane only.

SUPPORT

Sand
`#CBBFA8 · RGB 203 191 168`

Secondary text on green, footer. "Other" in charts.

Moss
`#7A8462 · RGB 122 132 98`

Card edges, placeholders. Large text and icons only.

DATA AND CHARTS · SERIES 1 TO 6, IN THIS ORDER

Clay
`#DE8582`

Errors on green

Terracotta
`#A14E2B`

Eyebrows, errors on linen

Amber
`#ECAC5F`

Warnings on green

Bronze
`#77581C`

Warnings on linen

Ochre
`#E9D574`

Chart only

Olive
`#6F8433`

Success icons

PROPORTION · DARK PAGE (DEFAULT)

Green 70% | Linen 22%

LIGHT PAGE · GREEN AND LINEN SWAPPED

Linen 70% | Green 22%

TEXT PAIRS THAT PASS (WCAG AA)

Linen on green	12.9
Yellow on green	12.6
Green on linen	12.9
Terracotta on linen	5.2

RULES

- Components use role tokens (`--bg`, `--fg`, `--accent`), never raw hex values.
- Yellow is a signal: once or twice a screen. Never text on linen, never inside photos.
- Hover is a 4px glow ring, not a lighter or darker shade.
- Lines are the text colour at 12–20%.

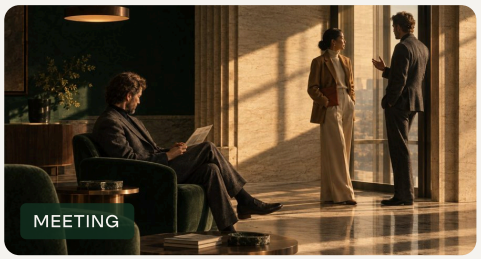

SecondLane

Visuals

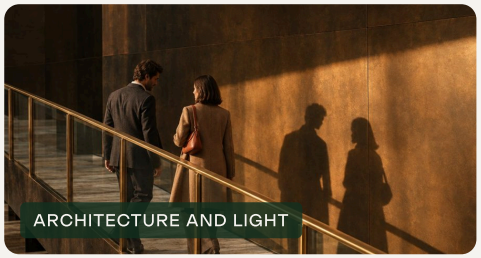

Two approved image styles, both from Round 6: editorial photography of people together, and halftone objects for the sectors SecondLane covers.

PHOTOGRAPHY

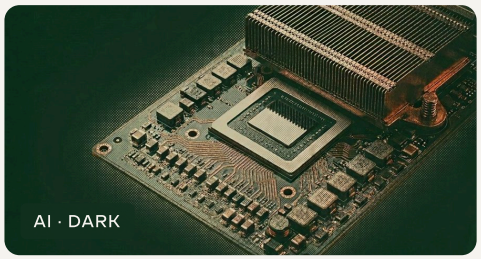

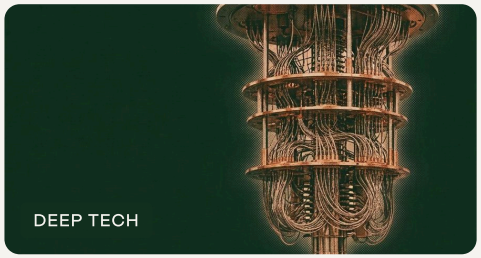

HALFTONE OBJECTS

DO

- People together: a conversation, a meeting, walking and talking.
- People, architecture and light compose the frame.
- Low warm side light, long shadows, sharp tailoring.
- One small terracotta accent per image.

DON'T

- Details or furniture with no people (a watch, a cup, a vase).
- Laptops as the subject, handshakes, charts on screens.
- Generic offices, staged stock, filters, neon or yellow.

- One object per image from a SecondLane sector: AI, crypto, fintech, consumer tech, gaming, space, deep tech, autonomy, defense, energy.
- Dark: object on bottle green with fine dots that dissolve into the ground, never an opaque glow. Light: object alone on linen.
- Warm light only, with one terracotta or bronze accent. No yellow or neon: yellow belongs to the interface.
- Image ratios: 3:2 home hero, 4:5 page hero, 5:4 cards, 4:3 splits, 3:4 portraits.
